

## When do you need to go beyond Business Central?

If your organization is experiencing any of the following challenges, it might be time to extend your ERP with advanced multi-entity capabilities.

## You may need to go beyond Business Central if...

- ☐ You're managing 3+ legal entities or companies.
- ☐ You're manually reconciling intercompany transactions.
- ☐ Your team exports to Excel for consolidated reporting.
- ☐ You maintain separate master records (vendors, customers, etc.) per entity.
- ☐ Your month-end close takes over a week.
- ☐ You're duplicating transactions across environments.
- ☐ Audit trails are fragmented across tenants.
- ☐ You're planning to scale into new markets, regions, or business models.

## Multi-Entity Management and Business Central at-a-glance.
