

Healthcare Materials Management (HMM) Portal - Licensing Requirements.

Licensing Requirements for the HMM Handheld Portal.

Component Type.	Description.	Quantity.	Est. Cost (USD).
Microsoft Entra ID Basic License.	- With purchase of Business Central, basic Microsoft Entra ID (Free Tier) is included to manage user identities. The Free Tier is sufficient for portal's authentication requests.	1	Free.
Azure App Service — Basic B1 Plan - Linux	- Azure App Service can be used to host the portal on Azure, making it accessible to all users. A Basic B1 App Service Plan is sufficient for this purpose. - No separate portal license is required for each user accessing the portal. - A Basic B1 App Service Plan is adequate to host a portal for approximately 50+ users. - B1 comfortably handles 50+ concurrent active users. - If a customer already has a local Windows Server available, they can host the portal on IIS within their own network. In this scenario, Azure App Service is not required.	N/A	\$13.14/month (North Central US). Note: Pricing may vary by location.

Azure SQL Database	- An Azure SQL Database will be required to support the portal. - For initial deployment, a Basic Azure SQL Database plan is sufficient. This plan provides 5 DTUs and up to 2 GB of storage capacity, which is adequate as the database is primarily used to store portal master data. - If additional storage capacity or performance is required in the future, the database can be upgraded to a Standard plan. A Standard plan typically provides 10 DTUs and up to 250 GB of storage, with an estimated cost of approximately \$15 per month. Source: Azure SQL Server Database Pricing	2GB	\$4.90/month
HMM Suite Full User License.	- Full access to HMM Core and Portal. Only a single license is required for all portal users.	1 for all portal users.	\$220/month or \$2,375/year.

Cost Scenarios (Per Month).

Scenario A – 20 Portal Users.

Component.	Quantity.	Unit Cost.	Est. Total Cost (USD).
Azure App Service — Basic B1 Plan - Linux	-	\$13.14	\$13.14
HMM Suite Full User License.	1	\$220	\$220
Azure SQL Database	-	\$4.90	\$4.90
Estimated Total Monthly Cost.			\$238.04

Scenario B – 50 Portal Users.

Component.	Quantity.	Unit Cost.	Est. Total Cost (USD).
Azure App Service — Basic B1 Plan - Linux	-	\$13.14	\$13.14
HMM Suite Full User License.	1	\$220	\$220
Azure SQL Database	-	\$4.90	\$4.90
Estimated Total Monthly Cost.			\$238.04

Important Notes.

- Costs are estimates; actual billing may slightly differ.
- These costs apply to portal users **only**.
- Users requiring HMM access within Business Central must purchase **an additional HMM license**.
- The above estimates are based upon Basic Plans for App Service and SQL Database, if additional capacity is required then estimates will be changed.
