

Comprehensive lease accounting and property management.

Property & Lease Management is seamlessly embedded within Dynamics 365 Finance & Operations, equipping your team with powerful tools for managing property and lease portfolios while ensuring compliance with ASC 842 and IFRS 16.

Not just a property management tool, it's an advanced lease accounting solution that streamlines your entire lease lifecycle. Whether you're handling equipment leases in manufacturing and supply chains, expense leases for lessees, or revenue leases for lessors, P&LM is the comprehensive solution for residential, commercial, and retail property management, as well as asset leasing.

Beyond lease administration, P&LM delivers in-depth, real-time reports, empowering organizations with sharper insights and improved forecasting for smarter business decisions.
